GitHub: <https://github.com/Nikitha-24300>

Education

B.Tech in Computer Science and Engineering

Vasavi College of Engineering, Hyderabad | 2025 – 2028 (Expected)
CGPA: 9.04 / 10

Diploma in Computer Science and Engineering

Government Polytechnic, Masab Tank, Hyderabad | Completed 2025
CGPA: 9.8 / 10

Technical Skills

- Programming: C, C++, Python, Java, HTML, CSS, Javascript (basics),
- Cloud Computing (basics)
- Web & Backend: Django (basics), Flask (basics)
- Databases: MySQL
- Concepts: Operating Systems, Computer Networks, Computer Architecture, DBMS, DSA

Research & Technical Projects

Research-HUB AI

- AI-powered platform for intelligent discovery and organization of academic research papers.
- Implemented semantic search using vector databases for context-aware retrieval.
- GitHub: <https://github.com/Nikitha-24300/ReseachHub-AI>

Student Course Registration System

- Desktop system enabling students to register or drop courses with administrative management features.
- Developed graphical interface using Java Swing.
- Integrated MySQL database through JDBC for persistent data management.
- GitHub: <https://github.com/Nikitha-24300/StudentCourseRegistrationSystem>

Spam News Detection Using Machine Learning

- Machine learning model for identifying spam or misleading news articles.
- Code available upon request.

Memory Allocation Visualizer Using Paging

- Operating Systems simulation project to visualize paging-based memory allocation and page table mapping.
- Built using Python + Streamlit
- Interactive memory frame visualization
- Page table simulation
- Memory usage statistics dashboard

Smart Travel Planning System

- Graph-based intelligent travel planning application that computes optimized routes across buses, trains and flights.
- Dijkstra's Algorithm implementation
- DFS for alternative route discovery
- Real-time API integration
- Offline estimation mechanisms
- Hybrid Python + C architecture

Relevant Coursework

- Discrete Mathematics
- Design and Analysis of Algorithms
- Machine Learning

Achievements & Activities

- Participant, Gen-AI Forge Hackathon 2026.
- Participant, Troubleshoot Event – QUEST 2023 (JNTUH).
- Workshop on AI Chatbots and High Performance Computing Clusters – Spoorthi 2024 (Swecha Telangana).
- Industrial Training Program in Python – RKJ Technologies Pvt. Ltd.

Certifications

- Digital Application Fundamentals (STEM) – NASSCOM
- IBM SkillsBuild Masterclass
- Introduction to Generative AI – IBM SkillsBuild
- Programming in Java – Course Completion Certificate
- Introduction to Python – Course Completion Certificate
- Artificial Intelligence Internship – Intrainz
- NPTEL- joy of computing with python with score: 88%
- NPTEL- DBMS with score: 79%
